HACKING
CYBERDANGERS PRIVACITY

is a · **has** · **in** · **in** · **both from** · **do not confuse** · **understand** · **have**

TEMPTATION

MEDIA AND FILMS
- exciting confusion
- dynamiter -> hacker

RESPONSABILITY
ETHICS
- understanding the risk
- knowing how to live with more and more dangers

Crime dosen't pay.

DANGERS
- Prison, fines
- someone dangerous and more skilled may be across

DETECTION
- Laws are made with fear.
- There are milions US$ spent on police, army, CIA, FBI, ...

WEBS
Have I been Pwned
shodan
securitybydefault

OTHERS
Luser, lamer, script kidies, BOFH, LOFH

AUDITS
internal security, perimeter security, of the code, in web pages

MEETINGS

LAS VEGAS
DEFCON
more focused on techniques, security, companies, FBI, ...

Food for Thoughts.

BERLIN-HAMBURG
CHAOS COMMUNICATION CONGRESS
more global, with hacking, cracking, privacy, hacktivism, lockpicking, hacker art

BARCELONA
NocONNname
Security, companies, state security forces, auditors

USA-ITALY-SPAIN
HACKMEETING
self-managed hacker art, radio, hacktivism, hacking, cracking,

CYBERDANGERS

- hiden bugs
- espionage

Stay vigilant.

CYBERCRIME
most common crimes -IC3-
- 19.9% goods-payments
- 14.1% identity thefts
- 10,4% credit cards

3200M email address leak 2021
624% increase in malicious APPs 2020

CYBERATTACKS
cyberterrorism
cyber-wars

3 WORLDS
It's not always cracking. for ex.:
GHM or Debian and KDE hacklabs

HACKING TECHNICAL
- hardware
- software
- electronics
- Internet protocols and formats

May the source be with you.

the open, interoperable, standardized and free-libre proposals are prefered.

HACKER ART
- expression
- new techniques
- esthetic

HACTIVISM
- activism + technology
- cyber-manifestations cyber-actions

HACK
surprising solution for a complex problem.

CRACKERS
hackers in security

HACKERS
people skilled in something
"itch to scratch"

SOCIAL ENGINEERING
to talk to someone to get info like passwords

SOFTWARE
- port scanning
- wifis
- rootkits
- operative systems
- virus-trojans-worms
- keyloggers
- .jpeg
- .doc - macros
- exploits
- Spoofing
- SQL-injection
- javascrip-injection
- inverse engineering
- cryptography
- steganography

HARDWARE
- consoles
- toys
- hotel cards
- dangers of the digital Id
- and digital signature
- mobile bluesnarfing
- RFID
- biometry

HACKERS VALUES

Someone will steal your password eventually. have you thought? Sexting?

PRIVACY
Better safe than sorry.
your data have a price
privacy activism, supercookies, GnuPG, VPN, Tor, Freenet, SSH

FREEDOM
WikiLeaks, free software free knowledge

HACKER ETHICS
like physicians

SECURITY
Firewalls, sniffers, IDSs as Snort, logs, vulnerability scanners Nessus, honeypots, computer forensics

TRANSPARENCY
full diclousure

TECHNICAL SKILLS
challenges, exploring, to be the first to discover
